Meet Cosmo. He is 9 months old. He is neutered hooded rat. We are in the process of re-introducing him to brother Astro. We are hoping they can be adopted together. They are both nice boys who like to be held by people.

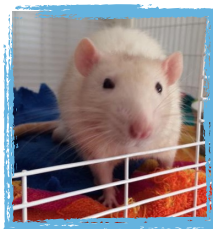

Do you need a cage or supplies for your furry friends? The rescue has a selection of cages, hammocks, litter boxes, igloos and much more. Homemade dry food and litter are also readily available. The rescue asks for donations for these supplies which help provide more rats with a second chance.

Minoh is a dumbo tan-capped boy and currently lives with his brother Newt. He is very friendly and likes shoulder rides. Wouldn't you like to meet him?

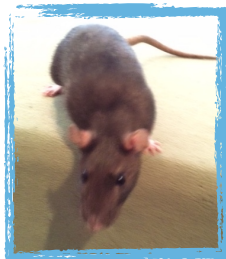

Meet Bing and Crosby. They are black capped males. Crosby (left) has some black spots on his back. We are guessing they are about a 1 1/2 years old. They are easy to handle. They were found at a Petco where a family had left them.

Turner is estimated at seven months old. Hooch has straight ears and is a huge, gorgeous, curious boy. He will need help getting used to being handled. Please contact us for more information!

These babies were born Dec. 6. They are a good size already for their age and will be available for adoption on Jan.10, 2016. They are very healthy and friendly. There are 3 boys 3 girls, all are black with white tummies, except for the PEW white curly haired boy.

Boot is a friendly girl. She is healthy and will be available on January 14th. She will hopefully be paired with a cage mate soon. Please contact us if you want to meet her.

Newt is about 8 weeks old. He is a friendly and nice boy. He loves all food. Please inquire with any questions.

It may not be snowy in Arizona but why not snuggle inside with a new companion?
