Do you need a cage or supplies for your furry friends? The rescue has a selection of cages, hammocks, litter boxes, igloos and much more. Homemade dry food and litter are also readily available. The rescue asks for donations for these supplies which help provide more rats with a second

Elby is a dark tan-capped rat rescued from Prescott Valley who is currently under treatment for a likely ear infection with an improving head tilt. He is about 5 months old. He is bonded with Stephie , black-capped, spayed female who is approximately 4 months old.

Amber (left) and Ariana are tan-capped females. They are spayed. They were rescued from Prescott Valley. They are about 4 months old.

Tizz is a grey and white dumbo who is estimated to be about 11 months old. He was found in a cage next to a parakeet in an alley. He is super sweet, adventurous, and loves to explore different surroundings. He doesn't mind being held and will actually come to the cage door to be let out. He does squeak sometimes, but it's cute and he seems happy. He also loves his head being rubbed. He will be paired up if there is not already a friend already in his new home.

Polaris was found in Prescott Park. He will need to be adopted with a friend. Please call for more information on this handsome boy.

## In Tucson

Meet Violet (sitting in her bowl) and Daisy. They are part of the Prescott Park rescue. They are about 2-4 months old and friendly.

Vidian (left) is confident, likes to take initiative, and to be in charge. Fawn is very energetic, patient, helpful, and is the mothering type. They are getting used to being handled by children. They are between 2 to 6 months old and must stay together. They are both spayed.

Miranda and Nikko, who are spayed/neutered and about 5 months old, just became friends. Miranda is nice although a little skittish. Although she is fairly easy to pick up, and will take treats when offered, the individual will need to have some patience building her trust. Nikko is very curious and vocal, and used to nip before his neuter, but is he is currently loving the stitches.
