

December 2014

Schemer is about six months old and Brisby is at least a year and a half old, and the alpha of the duo. She likes to groom Schemer. They wrestle a lot, but are very playful together. They are easy to handle, but Schemer is a little skittish. Brisby can sit on your shoulder as long as you let her. Both are spayed. They are very loving and playful, and are the best of friends.

Miss Whiskers and Roxy are very friendly Siamese girls. Roxy is 1 year old and Miss Whiskers is 1 1/2 years old.

In clockwise order Amiga, Shalom, Or and Esperanza are looking for their perfect home. These four female agoutis are approximately 8 months old. They are friendly, energetic and sweet in spite of living with a barking dog!

*Happy
Holidays
from all the rats at Any Rat Rescue*

Lucy is about two years old and came to us with a right eye injury and large mammary tumor. The tumor has since been removed and she has been spayed. She is recovering well and loves human attention and touch. She is friendly with other rats but could also go to a home where she would get lots of attention and time out of the cage with her human companion.

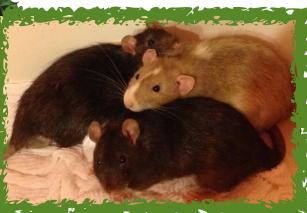

Petey and Holden are black-hooded boys who are about 8 months to a year old. Petey is friendly and interactive but needs practice with being held and pet. Holden is a bit on the shy side and prefers relaxing over highly active situations. They need someone with the time and patience as well as prior rat experience to make them great boys. They have made a lot of progress already in a short time!

Carson and Fitz recently came into the rescue. They are about 8 months to a year old. They are definitely still in their prime and love to run all over when let out. They are very excited to interact with people. They would be fine as first-time pets but they probably would not do well in a house with other rats since they're males and might be hostile towards others.

Meet Mariella. She recently lost her companion and is looking for lots of love. She is spayed and is about 1.5 years old.

Wash and Garry are the black Berkshires. They are very sweet boys, although they are still a little shy. Even when the most anxious one, Wash, is panicked, he will only do a warning graze of teeth. They are very active and adventurous, and would be great for agility or tricks. They are between 6 and 8 months old.

Treasure is the white and cream-colored rat in the photos. She is about a year old and is blind in one eye. Blue is the smaller gray and white hooded rat who is super friendly and mellow for her age (about 10 weeks).
